

QUALITY MANAGEMENT INTERNATIONAL, INC.

FOOD SAFETY MANAGEMENT SYSTEMS LEAD AUDITOR COURSE USING ISO 22000:2005

We teach you how to use auditing to improve your organization.

Learn to audit processes and management systems to improve the effectiveness of your organization. Audit is one of the most powerful tools an organization has. Time and time again we have seen our students apply what they have learned to help top management reduce waste, prevent defects and problems, improve efficiency and create more value for their customers.

With QMII, you will learn practical, hands-on audit skills and concepts that bring life to these subjects. Our students are amazed at how engaging our classes are, and at how valuable these skills are to their careers and their companies.

Each five-day class teaches:

- ❑ Understanding the differences between the Management System, the Standard, and the Audit
- ❑ Appreciating the value of the Management System
- ❑ Understanding of food safety management principles
- ❑ Interpreting the requirements of ISO 22000
- ❑ Understanding, evaluating and applying risk assessment principles, processes and tools
- ❑ Interpreting the requirements of PAS 220 for basic food safety
- ❑ Recognizing a wide variety of food safety management system components and their interrelationship with legal requirements
- ❑ Understanding system documentation and records
- ❑ Leadership requirements
- ❑ Preparing food safety policies and objectives
- ❑ Understanding the FSMS auditing process
- ❑ Preparing an audit programme and planning an audit
- ❑ Performing an investigation, evaluating evidence, and reporting audit results
- ❑ Verifying and taking effective corrective action
- ❑ Monitoring, reporting and improving system performance
- ❑ The registration and certification process
- ❑ Analyzing Processes to Identify Resources and Critical Controls
- ❑ Reviewing Processes and Preparing Checklists
- ❑ Determining Nonconformities
- ❑ Writing Nonconformity Statements
- ❑ Interviewing Auditees
- ❑ Chairing a Closing Meeting

This course has been designed to meet the requirements of FSMS Lead Auditor set forth by IRCA.

Even though ISO 22000:2005 is used as the model for teaching audit, this class enables students to develop and apply auditing skills using any applicable management system standard.
