

FOR IMMEDIATE RELEASE

## **QUALITY MANAGEMENT INTERNATIONAL, INC. AWARDED TABSS CONTRACT WITH DEPARTMENT OF HOMELAND SECURITY**

**Washington, DC., June 18, 2012** – Quality Management International, Inc. was selected by the Department of Homeland Security (DHS) as a member of the winning team under the DHS-wide Indefinite Delivery / Indefinite Quantity (ID/IQ) Multiple Award Contract referred to as “TABSS” (Technical Acquisition and Business Support Services). The TABSS contract has an \$11 Billion combined (all TABSS awardees) maximum ceiling over the next five years and was issued by the United States Coast Guard for use across all DHS component organizations. The winning team received an award within the 8(a) Track of Domain 1, which focuses on providing Program Management, Engineering and Technology Support Services.

The TABSS contract will provide DHS customers with the services needed to assist with the cross-organizational mission of protecting our homeland, deterring crime, detecting and countering terrorism, and the myriad of other critical responsibilities. The winning team has deep collective roots across DHS, an extensive portfolio of experience and capabilities, the ability to provide and retain the highly qualified professionals necessary for superior support, and now stands ready through TABSS to help DHS meet the broad range of challenges and support decisions inherent in DHS acquisitions.

Quality Management International, Inc. is one of the original management systems consulting firms previously operating mainly in North America and Europe. QMII clients all over the world now meet their system objectives using the methodology and expertise of the QMII team.

We provide training, auditing and consulting services to empower organizations to master the continual improvement of their management systems. This allows our clients to meet the needs of their customers, employees, shareholders and other stakeholders faster and more efficiently.

QMII's insights are based on experience gained in assisting hundreds of organizations to upgrade their business management systems, redesign processes and improve teamwork, along with our wealth of international experience from Europe, Asia and the Middle East and our unique systems approach as an industry leader. Many of the successful consultants and auditors practicing today were originally trained by QMII.

Since our foundation in 1986, QMII has served organizations in many different industries including manufacturing, transportation, engineering, aerospace, maritime, chemical processing, professional services, food, medical device, construction, government, education and others.

This year, QMII is celebrating 26 years of our client's success.
