

## In this Issue of "The Globe"

Welcome to this spring edition of "The Globe." We hope you are ready to "spring into action" with QMII. We look forward to connecting with you and learning more about your system objectives and providing you with solutions that make a positive difference. Benefit from our system approach methodology and experience the difference with QMII as we guide you on the path to success!

## Training Spotlight

### [Combined ISO 9001 & ISO/IEC 17025](#)

**Class is CONFIRMED - limited spots available May 1-5**

In this five-day course, participants will learn how laboratory management systems work and how to interpret and apply the requirements of the standard. This course provides an understanding of good management practices for laboratories performing testing and calibration.

Students will develop and apply auditing skills which they will be able to use with any applicable management standard. This class is recognized by Exemplar Global as meeting the education requirements for a Quality Management Lead Auditor using ISO 9001.

## Register Now

Click above to register for the virtual training May 1-5 and use promo code **LAB-200-0323** to save **\$200 (Expires 3/31/23)**. NEW REGISTRANTS ONLY

Looking to attend a different course? Email [Lisa Parsley](#) or check out our **COMPLETE SCHEDULE** [here](#).

Join us on **April 20th from 11 a.m. - Noon (EDT)** for a **FREE** webinar and learn how to **"Audit Risk-Based Thinking in a Management System."**

**QMII President and CEO, Dr. IJ Arora** will present the following:

- Audit techniques to assess the effectiveness of meeting the requirements of risk-based thinking
- Differentiation between risk-based thinking and risk management
- Auditing of undocumented systems
- Auditing leadership's commitment to risk based-thinking.

[Exemplar Global Certified Combined ISO 14001 and ISO 45001 Internal Auditor training](#) taught onsite to SCHOTT personnel in Lebanon, PA.

"This course was very interesting and complete. I already had lead auditor courses before, but I was not so involved in these standards or in the regulations applicable to the USA, I found the content and explanation very good."

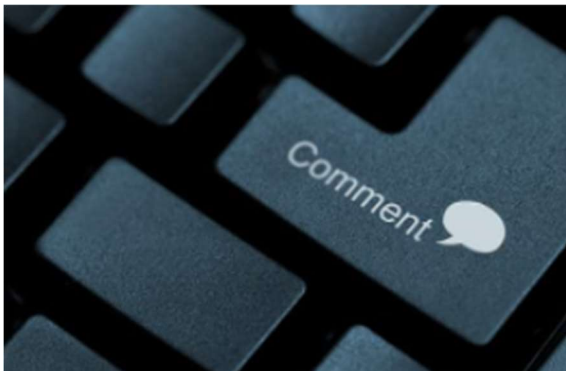

-Anonymous

"Julius did a great job of keeping the students engaged, bringing them into discussions and activities while asking questions to ensure they understood the content. He is very knowledgeable and did a good job of conveying knowledge to the students."

-Anonymous

"The overall structure of this course is well-developed. The self-study material was very helpful. Subject material---> Test ---> Discussion is extremely effective. I was lucky to get 1) a small class group that allowed for maximum participation, and 2) an exceptional instructor that encouraged questions and discussions."

- Charlene Heinmiller
