o   Interpretation Of IATF 16949 & ISO 9001
o   Applying Risk-Based Thinking
o   Auditing Management Systems
o   Planning the Audit
o   Managing The Audit Process
o   Leading the Audit Team
o   Performing The Audit
o   Reporting The Audit
o   Corrective Action And Follow-Up
o   Registration, Accreditation and Auditor Certification

The workshops include:

o   Analyzing Processes
o   Analyzing Operational Risk
o   Reviewing System Documentation and Preparing an Audit Plan
o   Reviewing Processes and Preparing Checklists
o   Verifying Facts
o   Writing Nonconformity Statements
o   Audit Investigation
o   Chairing a Closing Meeting
o   Reporting the Audit
o   Taking Corrective Action

Attendees successfully completing the examinations provided in conjunction with this course receive a Certificate of Attainment for these QMII training units:

ISO 9001 – Quality Management Systems
AUDITOR – Auditing Management Systems
TEAMLEAD – Leading Management Systems Audit Teams

Students who successfully complete this course can use these certifications as earned credit towards certification as Quality Automotive Management Systems Lead Auditor and other certifications such as ISO 14001 Lead Auditor and other similar standards under Exemplar Global's RTP Scheme.

Even though IATF 16949 & ISO 9001 are used as the model for teaching systems and audit, this course enables students to develop and apply auditing skills using any applicable management system standard.
