

The recent spotlight on AI-driven audits and quality failures in high-risk industries reminds us that human oversight, when guided by robust systems, remains critical. At QMII, we're proud to support organizations achieving the balance by adopting a suitable management system approach.

In this edition of *The Globe*, we're sharing practical strategies:

- **Maximize your training investment** – Learn how to retain valuable auditor training knowledge even if you're not applying it right away. Stay sharp and ready when the time comes.
- **Navigate ISO 13485 with confidence** – If you're in the medical device field, this breakdown of key QMS requirements can help you improve quality, manage risk, and stay compliant.

Let's continue this journey of improvement—together.

—Team QMII

CEO, Julius DeSilva (Right) Conducting RC14001/RCMS Lead Auditor Training

Class Testimonial

"The course was excellently conducted and it was explained with a very thorough understanding by Mr. Julius DeSilva... it was very satisfying and enlightening experience of my first course in US. I am greatly happy with the overall experience with faculty as well as QMII. My best wishes." - Mr. Singh

Dr. IJ Arora, addressing the cadets of the Ethiopian Maritime Training Institute in Addis Ababa. QMII supported the implementation of the QMS at the institute leading to its acceptance by EU Member States. This photo was taken in 2022.

QMII supported the implementation of a QMS for the Ethiopian Flag Administration. This is one of the international Flags that QMII has worked with. Seen in this picture is EMTI Commandant with Dr. IJ Arora.

Thank You For The Reviews!

"The instructor was very knowledgeable and explained multiple scenarios on how to audit, and how not to audit. His examples of incorrect/inefficient audits helped me to understand what not to do. Live, real time examples were very helpful."

- Jackie T

"Jonathan is a great instructor. He led us through the material (a lot for a newcomer) well and provided excellent feedback as we did the exercises. Julius was also fantastic with his additions and provoking questions which added to the learning experience."

- Gwen R
