

RESPONSIBLE CARE® ENVIRONMENTAL MANAGEMENT SYSTEMS LEAD AUDITOR WITH RC14001 AND RCMS®

We teach you how to use auditing to improve sustainability

Each class covers:

- ❑ Responsible Care™ Management Systems
- ❑ Understanding and Reducing EHSS Impacts
- ❑ Comparison of EHS Standards
- ❑ Requirements of RC14001 and RCMS
- ❑ RC Product Safety, Process Safety & Security Codes
- ❑ Assessing EHSS Impacts
- ❑ EHS Policy and Objectives
- ❑ EHSS Audit Planning and Preparation
- ❑ Environmental Legislation and Regulation (USA)
- ❑ Documenting the EHSS
- ❑ Performing and reporting the audit
- ❑ Concluding the audit
- ❑ Corrective Action and Follow-up
- ❑ Registration, Accreditation and Certification

Students gain competencies in:

- ❑ Assessing EHSS Impacts
- ❑ EHSS Policy
- ❑ Setting Objectives
- ❑ Audit Planning
- ❑ Writing an Audit Checklist
- ❑ Opening Meeting
- ❑ Audit Investigation
- ❑ Writing Nonconformity Statements
- ❑ Closing Meeting
- ❑ Reporting the Audit
- ❑ Corrective Action

Successfully passing this training meets the American Chemistry Council's (ACC) requirements for a qualified Responsible Care™ course as outlined in RC520 necessary for pursuing certification as a Responsible Care™ Auditor or Lead Auditor with Exemplar Global.

While RCMS and RC14001 are used as the models for teaching audit, this class enables students to develop and apply auditing skills using any recognized management system standard.
